

ISO14001:2015 ENVIRONMENTAL POLICY STATEMENT

Fozmula Limited is committed to reducing the environmental impact of its products and operations.

We will prevent pollution at source, use non-polluting technologies wherever possible and minimize emissions to air, water and land.

We will maintain compliance with all applicable environmental legislation and regulatory requirements in order to comply with ISO14001:2015 requirements.

We will monitor our environmental performance and will use such information to direct our objective of Continual Environmental Improvement specified in the Environmental Manual.

We are committed to conserving natural resources and to reducing the environmental impact of waste and energy consumption caused by the manufacturing of a wide range of electro-mechanical, mechanical and electronic sensors.

We will ensure that this Environmental policy is:-

- Implemented at all levels.
- Communicated to all staff in a suitable format.
- Available to the public.
- Periodically reviewed to ensure its suitability.

The procedures to be followed under the Environmental Policy are defined in the Environmental Manual.
